Improvement to Services

° *TEAMWORK for Total Quality*

The Office of the Assistant Commissioner for Public Services and Administration (formerly called Assistant Commissioner for Administration) has had underway a major effort to instill a total quality philosophy. The goal is to continuously achieve customer satisfaction in carrying out the missions of the Office. To acheive this goal, the key principles are commitment to quality — doing the right thing right the first time, respect for individuals, involvement of everyone, and creativity and innovation for continuous improvement.

All 750 employees in Public Services and Administration have been trained in total quality awareness which highlighted the meaning of quality in their work, the cost of quality, and the customer-supplier relationships. Those on Quality Action Teams were trained in disciplined problem-solving tools and techniques. During the year, there were many teams involving many people, focusing on better ways to get their work done and improve services and products. Results of these efforts are reflected in the accomplishments throughout the organization. Cost savings of over $1 million is attributable to finding better ways to do the work.

In October, Public Services and Administration was honored with the Secretary of Commerce 1991 Quality Award. In the spirit of the Malcolm Baldridge National Quality Award, the Secretary presents this award to organizations which, through their initiative and creativity, have made significant and dramatic improvements in Commerce's operations. Recipients of the Secretary of Commerce Annual Quality Award are those organizations that continually work to maintain and improve the quality of their products and services to the American people.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
